LEADERSHIP & STRATEGY SKILLS

- Managing, mentoring, and leading a team of globally distributed designers.
- Coaching over directing to foster psychological safety while maintaining a 'high standard of design craft'.
- Aligning design vision with business and product strategy.
- Stakeholder management & executive communication.
- Driving cross-functional collaboration with product & engineering teams.
- Scaling design processes within growing organisations.
- Thriving in ambiguous, fast-paced environments.
- Applying a growth mindset, being curious, and experimental.

PRODUCT DESIGN & UX SKILLS

- Service design mindset / end-to-end service ecosystems
- AI-enabled experience design
- Critical thinking across complex problem spaces
- User Research & Discovery | JTBD & Outcome-Driven Innovation (ODI).
- Applying prompt-driven AI development to bridge the gap between design and development.
- Roadmap prioritisation framework | Kano model.
- Product Discovery | Problem Framing Methodologies/Frameworks.
- Design thinking frameworks.
- UX/UI Design (Figma, Miro) | Wireframing & Prototyping.
- Design Systems & Accessibility (WCAG).
- Usability Testing | A/B Testing & Experimentation.

Experience

DECEMBER 2022 - PRESENT

Just Eat Takeaway, Bristol/London/Amsterdam– *Product Design Lead, Loyalty & Retention*

Team Leadership & Management

- I **empowered** a team of mid-to-senior designers to own high-stakes work, providing the strategic guardrails that allowed them to innovate autonomously.
- Setting **strategic direction** for the Loyalty team and influencing roadmap decisions.
- Engaging with senior leadership, including the C-suite, to align on key objectives.
- **OKR setting**, to establish clear and relevant key results and goals for each Ventures design team.
- I lead my team to treat **AI as a 'creative partner.'** We've shifted our **80/20** rule: **80%** of our time is now spent on deep problem framing and behavioral strategy, while AI handles the **20%** of routine production and linting.
- I created ways of working for the Ventures designer around planning and workload, influenced by a team well-being survey.
- Designed and scaled a product discovery framework adopted across a **150+ person design organisation**, establishing shared language, process rigour, and quality standards that enabled autonomous, high-quality work across multiple product teams.
- Established a structured design workflow (two-week sprints), **improving collaboration** and **workload** with product & engineering teams.
- Managed **high-impact** design initiatives across web, iOS, and Android, influencing millions of users.

Amazon Prime & Just Eat partnership

- Spearheaded the technical design constraints and launch of the **Amazon Prime x Just Eat Takeaway partnership** across Germany, Austria, and Spain; unlocked free delivery for over **2 million** new Just Eat Takeaway users, boosting customer retention.
- I served as the primary **design bridge** between Just Eat's **C-suite** and **Amazon's global leadership**. I didn't just 'design the flow'; I negotiated the trade-offs between Amazon's single-URL technical constraint and our brand's need for local relevance in Germany, Austria, and Spain.
- Total membership purchases to date: **~2M** total memberships purchased and **60%** reorder rate.

- Designed a cross-platform experience across web, iOS, and Android, driving thousands of activations in record time!

Free Delivery Bundle - One-Time Payment Initiative

- Led design for the launch of a **90-day free delivery pass**, resulting in **~4M** in purchases and a **15%** boost in incremental order frequency.
- Optimised the subscription lifecycle, achieving a **53% renewal rate** by ensuring a consistent and frictionless user journey across all digital touchpoints.

Just Eat+ loyalty initiative

- Currently leading the design vision for the Just Eat+ paid Loyalty initiative, focused on acquiring and retaining high-value customers and boosting engagement.
- Collaborating with researchers, the senior product lead, and the tech lead to define **strategic opportunities** that will **influence** our **2025/26** initiative roadmap.
- Utilising an **Opportunity Solution tree framework** to identify key **customer-focused opportunity areas** based on loyalty behaviour.
- Influencing stakeholders and C-suite stakeholders through data, customer behavior, and high-impact execution e.g.
 - *Experimentation & Validation:* Led end-to-end **A/B testing** for incentive models, proving credit-based rewards to be **2.5x** more effective than free delivery (**3.8%** redemption vs. **1.5%**).
 - *Product Optimisation:* UX improvements for Stamp Cards, generating **34,860** incremental orders and a **3.7%** uplift in conversion-to-order.
 - *Growth Strategy:* Orchestrated a basket-stage awareness campaign for Just Eat+, resulting in **9,000** new sign-ups and an **8%** lift in program conversion.

SEPTEMBER 2018 - DECEMBER 2022

Just Eat Takeaway, Bristol/London/Amsterdam – Senior UX Designer, Customer Pillar

- Spearheaded design efforts for key strategic initiatives, including dine-in, dish search, and a complete revision of the checkout process.
- Explored Consumer Journey in Takeaway Food Acquisition using JTBD & Outcome-Driven Innovation (ODI) framework - Investigated the comprehensive process undertaken by individuals with a problem-solver and explorer mindset when obtaining takeaway food. Uncovered critical functional, emotional, and social needs at each stage, from initial decision-making to final satisfaction.

- Serving as a UX mentor to other designers across the organisation.

JULY 2015 - SEPTEMBER 2018

Just Eat Takeaway, Bristol/London – *Senior UX Designer, Product Design Team*

- Discovering new lunchtime under-served opportunities - Participation in Jobs to-be-done research and Outcome-Driven Innovation (ODI) framework.
- Design of restaurant collection points, marketing comms, and value proposition video.
- Validating product improvements through lean experimentation (A/B testing) around Health and wellness.

Previous Experience

Somo Senior, Bristol/London – *Senior Visual Designer*

2014 - 2015

- Led UX and visual design for Audi e-tron explorer iOS app.

Dare, Bristol/London – *Senior Visual Designer*
